

International Conference on Materials Science & Technology (ICMTech - 2016), India

Dear Reader,

VBRI Press is pleased to announce 'International Conference on Materials Science & Technology' (ICMTech, www.vbripress.com/icmtech) during 01 – 04 March 2016, India. It is a four-day international event organised with collaboration of International Association of Advanced Materials (IAAM), and University of Delhi at the Conference Centre, University of Delhi, India. The goal of conference is to provide a global platform for high-tech materials and their manufacturing activities in India. The researchers and engineers coming from academia and industries will be interacted for the advancements of this sector through step towards 'Make in India' campaign.

The conference will provide opportunities for the delegates to exchange their face-to-face novel ideas and experiences with the international experts during the plenary and invited talks, oral presentations and poster sessions. We will also set up two parallel symposiums on Smart Energy Technologies and Large Scale High-tech Materials with keynote forum, panel discussion and manufacturing projects negotiation in India.

Important dates:

Deadline of abstract submission: **30 October 2015**

Confirmation of abstract acceptance: **05 November 2015**

Registration starts: **15 October 2015**

Early bird registration closed: **15 December 2015**

Banner of International Conference on Materials Science & Technology, Conference Centre, University of Delhi, Delhi, India

The main topics of the congress:

- *Nanomaterials and Nanotechnology*
- *Biomaterials and Biodevices*
- *Energy and Harvesting Materials*
- *Optical, Electronic and Magnetic Materials*
- *Structural Materials*
- *Computational Materials*
- *Composite and Ceramic Materials*
- *Constructional and Engineering Materials*
- *Environmental and Green Materials*

We trust that *Advanced Materials Letters* offers an international interactive platform for both industrial and academic researchers, professors and students active in the fields of applied or fundamental materials science related to biological, chemical, earth, atmosphere, ocean and planetary, engineering, mathematical, medical and physical sciences. The journal is expected to become popular accompanied with a high impact factor and as a conference chair, may welcome you as active part of the ICMTech. Your opinions and suggestions are greatly valued for the success of this event.

You may follow this conference on www.facebook.com/ICMTech

With kindest regards,

Ashutosh Tiwari, PhD, DSc

Conference Chair
