

Biosensors and Bioelectronics Symposium (BBS - 2016), Sweden

Dear Reader,

VBRI Press is pleased to announce 'Biosensors and Bioelectronics Symposium, (BBS, www.vbripress.com/bb) during 23 – 25 August 2016, Sweden. It is a three-day international event organised by International Association of Advanced Materials, Biosensors and Bioelectronics Centre - Linköping University on the Baltic Sea from Stockholm-Helsinki-Stockholm by the Viking Line Cruise M/S Mariella. The aim of symposium is to provide advances in biosensors and bioelectronics and related sectors such as telecommunications, mobile & digital health expert systems and distributed diagnostics and also provide the premier interdisciplinary symposium for researchers, engineers and educators to present and discuss the most recent trends and practical challenges encountered adopted in the field of Biosensors and Bioelectronics.

Biosensors and Bioelectronics Symposium

Parallel event under the umbrella of European Advanced Materials Congress 2016

23-25 AUGUST 2016, STOCKHOLM, SWEDEN

For more information please visit www.vbripress.com/bb

The main topics of the Symposium:

- *Biosensors - manufacturing and markets*
- *Digital & Mobile diagnostics and Tele-medicine*
- *Enzyme biosensors and Immunosensors*
- *Aptasensors, DNA chips and Nucleic acid sensors*
- *Bioelectronics, Biocomputing and Biofuel Cells*
- *Lab-on-a-chip, Organism and Whole cell-based biosensors*
- *Printed biosensors and Electronic noses*

The symposium will provide opportunities for the delegates to exchange their face-to-face novel ideas and experiences with the international experts during the plenary and invited talks, oral presentations and poster sessions. We will also set up following four parallel symposiums with the BBS 2016:

- *European Advanced Materials Congress*
- *Global Graphene Forum*
- *Smart Energy Technologies*
- *World Technology Forum*

The program includes keynote forum, panel discussion and manufacturing projects negotiation.

Important dates:

Deadline of abstract submission: **18 March 2016**
 Confirmation of abstract acceptance: **31 March 2016**
 Registration starts: **31 March 2016**
 Early-bird registration closed: **30 May 2016**

Venue of Biosensors and Bioelectronics Symposium – 2016 on the floor of Baltic Sea, from the Stockholm (Sweden) – Helsinki (Finland) - Stockholm (Sweden) via Mariehamn by the Viking Line.

We trust that *Advanced Materials Letters* offers an international interactive platform for both industrial and academic researchers, professors and students active in the fields of applied or fundamental materials science related to biological, chemical, earth, atmosphere, ocean and planetary, engineering, mathematical, medical and physical sciences. The journal is expected to become popular accompanied with a high impact factor and as a general chair, may welcome you as active part of the BBS. Your opinions and suggestions are greatly valued for the success of this event.

You may follow this event on www.facebook.com/Biosensors-and-Bioelectronics-Symposiums-1649059268681084

With kindest regards,

Ashutosh Tiwari, PhD, DSc
 General Chair

Biosensors and Bioelectronics Symposium, Sweden
 Editor-in-Chief, *Advanced Materials Letters*
