

# International Conference on Nanomaterials and Nanotechnology (ICNANO-2016), India

Dear Reader,

VBRI Press is pleased to announce 'International Conference on Nanomaterials and Nanotechnology (ICNANO-2016) ([www.vbripress.org/icnano](http://www.vbripress.org/icnano)) during 19-21 December 2016. It is a three day international event organised by International Association of Advanced Materials (IAAM, [www.iaamonline.org](http://www.iaamonline.org)) in collaboration with the VBRI Press AB, Sweden ([www.vbripress.com](http://www.vbripress.com)). The congress will be held at Vinoba Bhave Research Institute, Allahabad, India ([www.vbriindia.org](http://www.vbriindia.org)). The goal of conference is to provide a global platform for high-tech materials and their manufacturing activities in India. The researchers and engineers coming from academia and industries will be interacted for the advancements of this sector through step towards 'Make in India' campaign.

The main topics of the conference:

- *Synthesis and Characterization of Nanomaterials*
- *Functional Nanomaterials and Interfaces*
- *Nanobiomaterials and Devices*
- *Optical, Electronic and Magnetic Nanomaterials*
- *Nanocomposite and Nanoceramics*
- *Nanotoxicology*
- *Nanosafety and Management*
- *Computational Nanotechnology*
- *Structural and Engineering Nanomaterials*
- *Nanotechnology for Energy and Environmental*

The congress will provide opportunities for the delegates to exchange their face-to-face novel ideas and experiences with the international experts during the plenary and invited talks, oral presentations and poster sessions. We will also set up following three parallel symposiums with the ICNANO 2016:

- *Smart Energy Technologies*
- *Large Scale Production of Nanomaterials*
- *NRI Technology meet*

The program includes keynote forum, panel discussion and manufacturing projects negotiation.

*Important dates:*

Deadline of abstract submission: **30 August 2016**

Confirmation of abstract acceptance: **10 September 2016**

Registration closed: **15 October 2016**

We trust that ICNANO will provide an international interactive platform for both industrial and academic researchers, professors and students active in the fields of applied and fundamental nanomaterials and nanotechnology. Your opinions and suggestions are greatly valued for the success of this event.

With kindest regards,

**Ashutosh Tiwari, PhD, DSC**

**Conference Chair**
