European Advanced Materials Congress (EAMC)

Dear Readers,

International Association of Advanced Materials (IAAM, www.iaamonline.org) is pleased to announce European Advanced Materials Congress (EAMC), Sweden in the city of Nobel Prize, Stockholm, Sweden during 20 - 23 August 2018. The purpose of 20th assembly of advanced materials congress series is to bring together innovative academics and industrial professionals to a common forum for scientific and technological exchange on the imminent advances in the advanced materials and technology.

Fig. 1. Leaflet of European Advanced Materials Congress (EAMC) 2018, Sweden.

The primary objective of the congress is to be exploring the advancement of materials in energy, environment, healthcare and new age technology, while also enlightening the novel approaches in materials design, synthesis and evaluating their sustainability towards technology and the secondary goal is to promote scientific and translational research and innovations, technology developments and information interchange between researchers, engineers, students, and industry working globally. The emphasis on new, largely unpublished research and innovations will make this conference a leading platform for scientific and technological exchange on the imminent advances in the advanced materials and technology.

Call for abstracts is open in the European Advanced Materials Congress (EAMC), Sweden 2018. The organizers invite you to submit your abstracts through online abstract submission system and please encourage your collaborators/ colleagues/ students/ institute/ University to submit their abstracts by due date. Be part of "The World of Advanced Materials & Technology". 500+ Delegates from 80+ Countries meeting in 30+ Sessions, Symposiums & Exhibition.

Special attractions

- Excellent speakers from industry and academia. It is a series of advanced materials cruise event where 15+ international symposia are hosted in the single vessel.
- We explore interdisciplinary connections with this area.
- There is the chance to visit Nobel museum and two Scandinavian capital cities.
- Access to all parallel events in a single registration fee.
- The Advanced Materials Laureate, European Advanced Materials Award, Graphene Award, Nano Energy Award, IAAM Medal, IAAM Scientist Medal and Young Scientist awards will be privileged by the International Association of Advanced Materials.
- Amazing experience of cruise hospitality and visit two capital cities of Scandinavia, note to mention the beautiful views you will experience the Stockholm archipelago on sunny summer days and beautiful long and light evenings.

Highlights of activities

- Excellent Speakers
- Interdisciplinary Research Presentations
- Global Networking
- Strong Attendance from Industry and Academia
- Parallel Symposia
- Industry Exhibition
- Training Courses
- IAAM Awards and Felicitations
- Amazing Experience of Cruise Hospitality
- Explore two of the Scandinavian Capitals
- Global Market
- Product Launches

Look forward to meeting with you!

With best regards

Prof. Ashutosh Tiwari
